

NTEL ELECTRICAL SYSTEMS

NTEL does consultancy, sales, servicing and maintenance of all electric wirings and equipment - domestic and commercial

TECHNICAL SUPPORT

NTEL Systems offer wide scope of Technical Support Services for all Security and Telecommunications systems and products. This has been realized through establishment of a highly qualified and experienced technical support team who are Diploma and Degree holders together with close partnership between NTEL and its suppliers and manufacturers.

NTEL, with a combined effort from its staff, its suppliers and other support networks offer prompt professional advice, including:

- ❖ Systems design, Planning and configuration.

- ❖ Site commissioning
- ❖ Technical training
- ❖ Operator training
- ❖ Online system support.
- ❖ Certified installation demonstrating that your systems are installed to NTEL's high standards that conforms to the 'Code of Practice' and regulations for electrical and Telecommunications equipment and systems, bearing in mind all safety and environmental checks.

SURVEYS

All Nimutelcom Engineering Systems surveys are free of charge and are carried out by our experienced personnel together with our vetted consultants who will discuss your requirements and advise you of the options and different products available to best suit your needs, with no hard sell tactics.
